

Training for the Modern Maritime Pilot

Here at Azimuth Learning Academy, we are dedicated to provide a high-quality training platform designed to upskill and support marine pilots with using their Portable Pilot Unit (PPU) systems and specialised PPU software, wherever and whenever it suits them best.

We believe that safe piloting requires the right equipment coupled with effective training, and that this training should be accessible to anyone and anywhere.

That's why Azimuth Learning Academy courses are delivered onsite, and online, while following the guidelines set by the International Maritime Pilot's Association (IMPA).

Set yourself up for success with Azimuth Learning Academy today.

Continuous Professional Development (CPD)

Tailored professional development training for Portable Pilot Unit (PPU) users that includes 3 stages of development.

1. The Foundation (Beginner) Course

An online eLearning course consisting of five modules for current and future PPU users.

2. The Intermediate Course

Builds on the skills gained in the Foundation course through hosted training facilitated onsite & online by our trainers, led by Navicom's Lead Specialist Training Director.

3. The Advanced Course

Builds on the skills gained in the Foundation and Intermediate courses through hands-on practical training with a PPU facilitated by our trainers, led by Navicom's Lead Specialist Training Director.

Customised Product Training

Training specifically for your chosen Navicom Dynamic's Portable Pilot Unit(s).

Master the capabilities of your Portable Pilot Unit(s) through training facilitated onsite or online by our trainers, led by Navicom's Lead Specialist Training Director.

Customised Software Training

Training targeted on your chosen piloting software such as Qastor 2.5, Qastor 3.4 and SEAiq.

Master the capabilities of your piloting software through training facilitated onsite or online by our trainers, led by Navicom's Lead Specialist Training Director.

What learning options does Azimuth offer?

eLearning | Hosted training
Hands-on training

eLearning

Scan the QR code to find out more about Azimuth's Foundation course and how you can begin your Azimuth journey today.

Hosted training

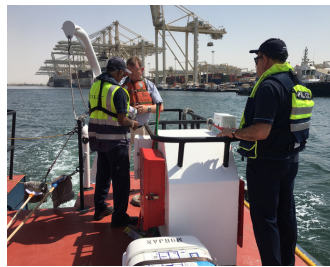

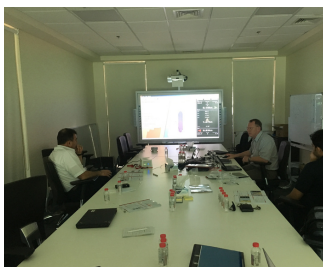

Study onsite, or online facilitated by our trainers, led by Navicom's Lead Specialist Training Director, who is a retired naval commander with over 40 years of marine experience

Available as part of the Intermediate and Customised Product and Software training courses.

Hands-on training

Gain hands-on practical skills with using a PPU, facilitated by our trainers, led by Navicom's Lead Specialist Training Director, who is a retired naval commander with over 40 years of marine experience.

Available as part of the Advanced course.

Frequently Asked Questions (FAQs)

What is covered in each training course?

You can find details of the modules covered in each Azimuth course by visiting the relevant course pages on our website. Alternatively, you can contact sales@navicomdynamics.com if you seek further information.

I want to purchase the Foundation eLearning course. How long will I have access for?

Great! You will have access to your digital course content for six months. Six months will be plenty of time to complete your course.

Can I purchase individual modules or must I purchase a full course?

You must purchase a full course to access the modules of your chosen course.

Will I receive a certificate of completion for each course?

Absolutely! You will receive a Navicom Dynamics certificate of competency confirming you have completed your chosen course.

How can I pay for each course?

The Foundation course can be purchased online via our website through a secure credit card payment. For all other Azimuth courses, please contact sales@navicomdynamics.com for a quote and invoice.

How much does course cost?

The Foundation course costs \$900.00 NZD. For all other courses, please contact sales@navicomdynamics.com for a quote and invoice.

Can Azimuth training be delivered overseas?

Certainly! Our specialist trainer has conducted training as far as Brazil! Please contact @sales@navicomdynamics.com to enquire about travel costs and availability.

What are the pre-requisites for each Azimuth course?

There are no prerequisites for the Foundation course. For information on other course pre-requisites, please visit the relevant course page on our website.
