

Navicom Dynamics

Innovate | Integrate | Communicate

Company Profile

An Overview

Navicom Dynamics leads the market in advanced Portable Pilot Units (PPUs) and precision navigation systems, trusted worldwide by maritime pilots and industry leaders.

We specialise in delivering high-accuracy navigation technology to enhance operational safety and efficiency in complex maritime environments.

Our Purpose

Provide solutions for accurate, effective precision orientation technology and monitoring systems through superb customer service and the constant development of new products and services to both anticipate and meet market demand.

What Defines Us

✓ Precision Engineering:

With industry-leading accuracy, our PPU's provide unmatched data integrity and situational awareness for safe and precise navigation.

✓ Custom Solutions:

Tailored to the unique requirements of ports and pilotage authorities, our solutions are adaptable to diverse conditions and operational needs.

✓ Expertise Support:

Backed by a team with extensive experience in navigation technology and the maritime industry, we offer support, training, and consulting services.

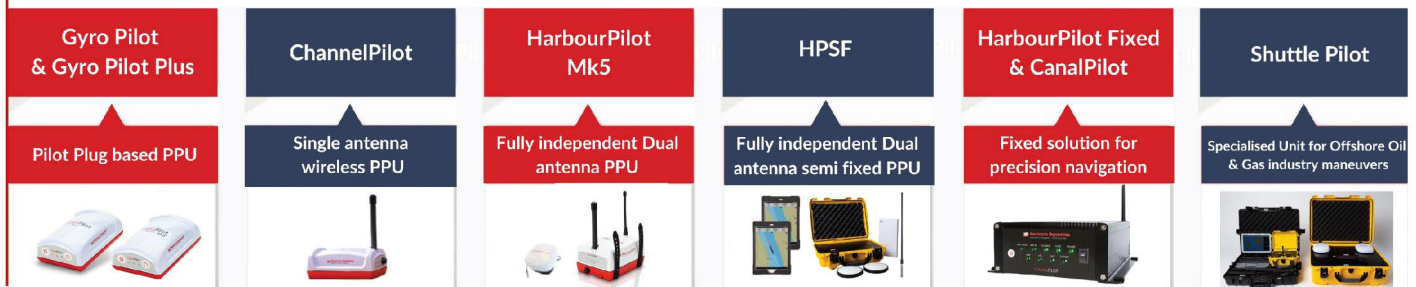

Navicom Dynamics

Innovate | Integrate | Communicate

Our Products

We offer a comprehensive suite of navigation tools, including PPU's, fixed units, docking assistance, and positioning systems.

Azimuth Learning Academy

In addition to our cutting-edge technology, we are proud to offer **Azimuth Learning Academy**, a dedicated platform designed to upskill and support maritime pilots.

Azimuth provides high-quality training, specifically tailored to enhance the use of PPU's and specialised PPU software. Available whenever and wherever suits the user best, this flexible learning platform empowers pilots to optimise their system use and stay ahead of industry advancements.

Global Reach & Recognition

Our systems significantly improve safety, work efficiency, and accurate decision-making for our clients in over 150 locations around the world.

The international maritime industry has come to recognise our name as synonymous with innovation, quality, and high performance. The positive feedback from our clients highlight our commitment to quality and continuous innovation.

Customers Reviews

"Navicom Dynamics Marine Pilots assisting equipment should be a must for every (marine) professional pilot worldwide."

"Innovative New Zealand company that's making its mark on the world."

"Would not hesitate to recommend the product and company for all your pilotage technology needs."

"This is one more way to **ensure greater security**, so that we can make a maneuver in adverse conditions and in confined spaces such as we have in the Port of Santos."
